Rhonda	103186398:Group Chat:Thank you for mentioning the trauma of children witnessing or hearing adults discuss the murder of George Floyd and then ensuing riots...who would of thought that Covid would be secondary in the news in the wake of this second trauma

Pamela	103186398:Group Chat:no
Ernie	103186398:Group Chat:Wondering if wearing a shield is a good alternative to wearing a cloth face covering.
Brian	103186398:Group Chat:For teachers and students?
Sonja	103186398:Group Chat:Seems like it could/should be.
Carla Maria	103186398:Group Chat:Yes, both.
Brian	103186398:Group Chat:I saw that shields are expensive. Some smaller schools cannot afford shields
Marie	103186398:Group Chat:If students don't wear masks doesn't that defeat the purpose of slowing the spread?
Joyce	103186398:Group Chat:NOt if they area 6 feet apart...
Brian	103186398:Group Chat:Yes. Hopefully slow down or eliminate social spread
Sonja	103186398:Group Chat:That's going to be next to impossible to for students to stay 6 feet apart in the classroom.
Michelle	103186398:Group Chat:I cannot imagine trying to keep my kindergarteners 6 feet apart!!
Sonja	103186398:Group Chat:lol
Marie	103186398:Group Chat:How practical is it to put a 6 foot distance within a classroom?
Helen Bailey	103186398:Group Chat:We will teach outside as much as possible
Sonja	103186398:Group Chat:so much for small group activities!
Ellen	103186398:Group Chat:you can't have 6 ft of separation with entire class in there
Brian	103186398:Group Chat:How is this type of disinfection financially possible?
Ellen	103186398:Group Chat:classes will have to be much smaller
Theresa	103186398:Group Chat:I know in my state there isn't funding to provide cleaning supplies for cleaning that frequently. Cost will fall to teachers, I'm sure.
Nyambura	103186398:Group Chat:I am thinking all these strategies have to look different for kindergarten.
Helen Bailey	103186398:Group Chat:6-8 kids with each teacher
Brian	103186398:Group Chat:smaller classes = more staff = more money
Ernie	103186398:Group Chat:Teachers need to advocate for alternatives for our current large class sizes - how might we utilize tech in the classroom for collaborative activities.
Sonja	103186398:Group Chat:smaller classrooms - more teachers - bigger budget!! they'll shoot that down for sure!
meltonya	103186398:Group Chat: https://www.cdc.gov/coronavirus/2019-ncov/community/clean-disinfect/index.html

Derek	103186398:Group Chat:Lost audio
phyllis	103186398:Group Chat:Should water fountains be opened?
Andrew	103186398:Group Chat:For protecting those at higher risk, is there any guidance on FLMA
Chris	103186398:Group Chat:As asymptomatic people may spread the virus, should educators begin advocating for a more robust system of testing/tracing?
Anne	103186398:Group Chat:Info needed about FMLA!!
Ernie	103186398:Group Chat:-very good point, @Chris W.
Helen Bailey	103186398:Group Chat:Yes - test and trace!
Stephen	103186398:Group Chat:What happens with staff that are in the high-risk category?
Christina	103186398:Group Chat:With budget cuts, how are we supposed to implement these changes?
Emily	103186398:Group Chat:I'm struggling with having young kids wear masks for 7 hours a day.
BRENDA	103186398:Group Chat:how do we handle children who do have fevers and parents do not pick them up?
Emily	103186398:Group Chat:How big should a pod be?
Sharee	103186398:Group Chat:The mask might be a struggle for the little ones
Krista	103186398:Group Chat:Daily checks? On 3,000 students!
Sonja	103186398:Group Chat:Older ones too
Benjamin	103186398:Group Chat:Physical distancing in schools is not realistic. Many of the recommendations the CDC is making are not realistic either. The risks can be "reduced," but they will remain HIGH. Vulnerable populations should not return to indoor facilities.
Derek	103186398:Group Chat:Are you folks losing audio or freezing?
Nyambura	103186398:Group Chat:If we stagger and have different drop off times for classes with big numbers does this mean the school year will go for a longer time?
April	103186398:Group Chat:Do you have additional suggestions for students with 1:1 personal care aides?
Halyna	103186398:Group Chat:How will teachers of various subjects then be allowed to work in the school? If students can only be with one teacher - that is going to be quite problematic. Not to mention - how to fit students across two-three classrooms instead of one...portables?
Carla Maria	103186398:Group Chat:No
Emily	103186398:Group Chat:are face shields as effective? Seems easier for kids to breathe with them.
Helen Bailey	103186398:Group Chat:Indeed - high risk teachers/students should remain online for their safety.
Ernie	103186398:Group Chat:I agree, Emily! Students with access to 3-D printers could manufacture them at a low cost for students and adults in their school districts.
Michael	103186398:Group Chat:All of these recommendations require significant restructuring of resources, both human and material, and, importantly require FUNDING. How can schools realistically implement them?
Alice	103186398:Group Chat:Keeping students in pods all day for them to join up with siblings in other grades after parents have been sitting in the parking lot waiting for staggered dismissal
Benjamin	103186398:Group Chat:Yes, and 60% of Americans have an underlying condition that qualifies them as higher risk according to CDC guidelines. Schools need to prepared to have less than 60% of their staff...
Ellen	103186398:Group Chat:how are we supposed to wait 24 hrs to clean a classroom if a student gets ill with covid
Halyna	103186398:Group Chat:I agree with Michaels D.

Helen Bailey	103186398:Group Chat:Funding is an issue for sure!
Harriet	103186398:Group Chat:why wait 24 hours to clean?? so cleaner doesn't get exposed?
Marisa	103186398:Group Chat:Although these recommendations may not be realistic for all demographics, think with a growth mindset.
Sue	103186398:Group Chat:Thank you Anu!
Noel	103186398:Group Chat:Are we going to receive certificate of attendance on this webinar?
Sue	103186398:Group Chat:Contractually, who is responsible or who can sanitize PE equipment?
Demetria	103186398:Group Chat:Good question.
Heather	103186398:Group Chat:Sorry my chat wouldn't send but hi! My name is Heather and I am a 3rd grade teacher from Illinois
Francine	103186398:Group Chat:You will receive a certificate
Lara	103186398:Group Chat:make sure you put your question in the Q&A box and not just in chat
Victor	103186398:Group Chat:Why should you wait 24 hours if an area becomes infected/
Marisa	103186398:Group Chat:CDC is informing us of considerations for which districts/schools need to consider when creating their reopening plan for the '20-'21 school year.
Kathy	103186398:Group Chat:Who pays for/provides the PPE for staff and students?
Noelle	103186398:Group Chat:Think of all of the manipulatives to clean in a primary room.
Kathy	103186398:Group Chat:Any union issues to gather input?
Karlee	103186398:Group Chat:that's what im worried about
Kathy	103186398:Group Chat:Does it violate HIPAA to take student or staff temperatures?
Theresa	103186398:Group Chat:There are tutorials online for DIY face shields.
Ellen	103186398:Group Chat:you would have to have enough manipulatives for each student, poorer districts won't be able to do that
Charlene	103186398:Group Chat:I am interested in learning more about the scheduling to make schools safer. Not everyone would agree.
Theresa	103186398:Group Chat:My district is considering a 2-1-2 schedule. In-person Monday, Tuesday, then Wednesday is a learn-from-home day to allow for disinfection, then in-person again Thurs Fri.
Halyna	103186398:Group Chat:You build immunity by being exposed...when we all go back after this quarantine - there will possibly be another round of this and we may be back in square one in another lockdown. Bizzaro world!
Ellen	103186398:Group Chat:that's interesting theresa
Benjamin	103186398:Group Chat:COVID-19 on surfaces is a serious concern. But prolonged exposure to airborne droplets circulating in enclosed environments is particularly dangerous. Having multiple people in a classroom for any length of time is high risk.
Theresa	103186398:Group Chat:My district has also formed several sub-committees of teachers and staff to plan for all stakeholders: families, teachers,students, community/campus visitors, cleaning, transportation, etc.
Lara	103186398:Group Chat:what about 1/2 students M T clean W other 1/2 students TH F. Virtual otherwise
Nyambura	103186398:Group Chat:I think schools have to see this as an experiment to put in place the best practices. By going slowly and having some school days at home may give the school system time to correct mistakes.
Halyna	103186398:Group Chat:Yes- those killer droplets will be around for a while.
Benjamin	103186398:Group Chat:We need testing and contact tracing that can track every infected person.
Halyna	103186398:Group Chat:Difficult forparents who may need to work - students who go in staggered or alternate days - what does the parent do with their children?
meltonya	103186398:Group Chat:A listing of the links shared during the CDC portion on the presentation can be downloaded from the Resource Widget

Michelle	103186398:Group Chat:One option our district has thrown around is that your class caseload is split in half. Group 1 attends M/W, group 2 on Tu/Th and all virtual on Friday.
Halyna	103186398:Group Chat:Yes, Michelle - we have discussed that as well during our Zoom staff meetings.
Beth	103186398:Group Chat:we are looking a week in school for 1/2 of the kids with the other 1/2 at home and alternate. This may be easier for child care for parents and staff
Rhonda	103186398:Group Chat:Yes,the staggered schedule is a childcare nightmare. My husband and I both teach and therefore wouldn't be able to care for our child on remote learning days. He also has a congenital heart defect that makes him at higher risk than the average child.
Theresa	103186398:Group Chat:@ Halyna - my district will also offer an online-only school for parents who want to keep kids home. I think we're also looking at care alternatives for families who won't be able to swing that at-home learning day. Not sure what that will look like.
Halyna	103186398:Group Chat:@Theresa M - did not know that. That is a nice option.
Carla Maria	103186398:Group Chat: In September, classes will take place on a b-learning basis (blended learning) - Portugal
Helen Bailey	103186398:Group Chat:Many of our teachers have no daycare or are over 65.
Michelle	103186398:Group Chat:So many unknowns!
Sonja	103186398:Group Chat:It's nice, but I think students will lose major ground!
Benjamin	103186398:Group Chat:In addition to the public health recommendations, we need an ethical justification for why reopening school facilities is worth the serious health risks, especially for vulnerable populations.
Marie	103186398:Group Chat:How many times have you seen students come in to school and a few hours later they have a fever? Parents will sometimes give them Tylenol and send them to school. This was happening before this pandemic. We also stress stay home when sick, cover your cough
Sonja	103186398:Group Chat:You need that in person contact learning to make real gains.
Halyna	103186398:Group Chat:Definitely a strategic nightmare.
Annette	103186398:Group Chat:We will all benefit from preparing our students to a world where things can get accomplished on a digital format
Alice	103186398:Group Chat:So true Sonja, especially ELL
Francis	103186398:Group Chat:Well said. We always need to be student-centered. In these, the strangest of times, we need to be more so.
Halyna	103186398:Group Chat:or second language classes
Nyambura	103186398:Group Chat:Also as the children head towards college and university they will be well experienced in digital formats and platforms.
Helen Bailey	103186398:Group Chat:Indeed!
Carolina	103186398:Group Chat:how to excersice properly if students cant use the play ground?
Sue	103186398:Group Chat:PE can function if well planned
Francis	103186398:Group Chat:I am wondering if anyone has suggestions how to advance experiential learning and cooperative learning opportunities, while also ensuring student safety.
Kathy	103186398:Group Chat:What to do with staff with Asthma that cannot wear a mask and are scared to go back into the classroom to teach?
Benjamin	103186398:Group Chat:Staff with asthma or any underlying condition that places them at higher risk should not be required to return to school facilities.
Rosanne	103186398:Group Chat:I agree.
Marie	103186398:Group Chat:Agreed!
Halyna	103186398:Group Chat:Medical leaves should be available for all. That said - we know there are budget restrictions and different regulations.
George	103186398:Group Chat:Maybe return with additional supports!!!
Nyambura	103186398:Group Chat:I think all these recommendations we are seeing will need financial support from the provincial and federal levels to take care of things like health items needed, extra staff, materials etc.

Carla Maria	103186398:Group Chat:Portugal!
Lara	103186398:Group Chat:available funds is key
Tarcizio	103186398:Group Chat:Portugal!
Benjamin	103186398:Group Chat:Yes, schools definitely need financial support and resources.
Kathy	103186398:Group Chat:Our budget is gone in California. Unless the feds step in, we are not going to have the funding.
Sonja	103186398:Group Chat:School districts all cry poor mouth!
BRENDA	103186398:Group Chat:We cannot afford extra teachers that's why we have such big classes.
Joyce	103186398:Group Chat:No teachers to fill current positions. :-(
Brian	103186398:Group Chat:What about getting kids to school. Need more buses so kids can social distance. And, companies have gone out of business. Cost...?
BRENDA	103186398:Group Chat:Where do you find new teachers?
Helen Bailey	103186398:Group Chat:They are talking about cutting positions in many districts
Carla Maria	103186398:Group Chat:Don't forget: School is a protective enclave, a shield against various realities! Students need to get back!
BRENDA	103186398:Group Chat:Yes especially in the arts...
Halyna	103186398:Group Chat:I think the computer giants need to step up and help with funding for personal safety, medical, hiring teachers etc. They have the means.
Bart	103186398:Group Chat:Or for bussing 1 bus route now becomes 3 to spread students out. \$\$
Lara	103186398:Group Chat:if the kids have lunch in the classroom, when do the teachers have lunch?
Jennifer	103186398:Group Chat:I am concerned about subs too. Many of our subs are retired individuals. Who is going to cover classes when and if teachers need to be out?
Jack	103186398:Group Chat:Some students may have concerns related to return that are unrelated to COVID. Some have enjoyed at-home learning as the stresses of attendance have gone away for them.
Francis	103186398:Group Chat:The greatest staffing challenge is going to be associated with ensuring that the smaller class sizes are staffed. Previous staffing formulas do not address social distancing. Staggered start times, alternating days, flipped or blended instruction help.
Halyna	103186398:Group Chat:@Lara K. Teachers don;t eat lunch...
Jennifer	103186398:Group Chat:Our busses struggle to make it on time with normal dismissal times, how are we going to accommodate staggered
Bart	103186398:Group Chat:SEL is going to a bigger necessity to transition everyone back as well.
Beth	103186398:Group Chat:for staff and students
Francis	103186398:Group Chat:SEL will be key. Thanks Bart H.
Halyna	103186398:Group Chat:well - this has highlighted so many shortcomings - it is truly eye popping!
Helen Bailey	103186398:Group Chat:SEL is key!
Julie	103186398:Group Chat:SEL. For staff and students. Agreed.
Benjamin	103186398:Group Chat:Staffing is going to be a serious problem. If higher risk staff stay home, schools will have to operate at 40% capacity. And 16 students in a classroom is way to many.
Howard O	103186398:Group Chat:I've lost the sound
Jennifer	103186398:Group Chat:Yes, SEL first for sure. I like the saying Maslow before Blooms.
Lora	103186398:Group Chat:me too!
Gale	103186398:Group Chat:I haven't heard anything about needs for students with disabilities. Students on IEPs and 504 plans
Howard O	103186398:Group Chat:Agree.

Nyambura	103186398:Group Chat:What does SEL stand for?
Bart	103186398:Group Chat:Refresh- I lost sound and then it came back
Francis	103186398:Group Chat:Scheduling for schools (classes, breaks, transitions, and lunch) is going to be key. As a former principal I know that Administrators will need some training on this.
Helen Bailey	103186398:Group Chat:Dual enrolled - SPED/ELL need extra support
Carla Maria	103186398:Group Chat:Students quickly caught on to this!
Kathy	103186398:Group Chat:social emotional learning
Jennifer	103186398:Group Chat:I am also concerned with the need for child care. If we are looking at alternating days, we have many staff members with elementary aged children (me included). This is going to be a big challenge for families.
Kristin	103186398:Group Chat:SEL = Social EMotional Learning
Ernie	103186398:Group Chat:I like the idea of families being able to choose if they want to attend a few days a week or totally online. I think that any of these options can be accommodated as long as educators consider all solutions with flexibility.
Linda	103186398:Group Chat:What do you suggest about families who have two working parents and the school doing a hybrid of distance and brick/mortar learning? We are a private school and this is a real concern of not being able to feasibly keep students home for long periods.
Francis	103186398:Group Chat:SEL - social, emotional learning
Deb	103186398:Group Chat:Important to support families in order to support students
Brian	103186398:Group Chat:Equity is needed re technology requirement for virtual learning.
Benjamin	103186398:Group Chat:Wealthier families will be able to keep themselves and their children at home. Reopening places vulnerable populations at greater risk. This is also a social justice issue.
Evlyn	103186398:Group Chat:Considering keeping the families together is an excellent idea to consider
Ernie	103186398:Group Chat:@Benjamin - that's why school districts will need to be flexible with their zoning as well as what instruction will look like.
Donna	103186398:Group Chat:Need to educate the parents to help their child with the technology. I have middle school Special Education students in the LLD program and many parents do not speak English or can help their child. More support is needed for our students
Carla Maria	103186398:Group Chat:How do you deal with helicopter parents on online lessons?
Ernie	103186398:Group Chat:If a school in one area has a lot of open seats, due to more families opting to use remote teaching, those empty seats should be made available for students not zoned for that school.
Irene	103186398:Group Chat:This has been a great webinar. Very informative and readily applicable in our schools
meltonya	103186398:Group Chat: https://inservice.ascd.org/
Halyna	103186398:Group Chat:I had some news yesterday about 2 families that lost a loved one. That is another layer of supporting during return to
Anne	103186398:Group Chat:Great Webinar!
Marci	103186398:Group Chat:Thank you so much!
Brian	103186398:Group Chat:Kids who have "gone dark" in virtual learning have often lost a loved one.
Elizabeth	103186398:Group Chat:I look forward to reviewing these resources. Thank you- great international perspective.
Donna	103186398:Group Chat:Yes. students will be grieving lost ones and being confined for so long and now all the other world news with the riots. Awful!
Len	103186398:Group Chat:Thanks for providing this information!
Sue	103186398:Group Chat:Awesome need more of this
Carla Maria	103186398:Group Chat:Thank you so much!
Halyna	103186398:Group Chat:yes- or they are withdrawing for many other reasons
Brandy-Lee	103186398:Group Chat:Great information! Thank you

Evlyn	103186398:Group Chat:Lots of areas to consider as we think of returning to school. It requires some deep planning with our staff
Rhonda	103186398:Group Chat:Where is the certificate of completion that is usually available in the icon bar?
Benjamin	103186398:Group Chat:Here's a link to some Social and Emotional Learning supports: https://sel4us.org/covid-19-sel-mental-health/
Colleen	103186398:Group Chat:Lots of helpful ideas. The hybrid model makes me the most nervous. I am worried about the LEARNING for our students. At the elementary level, students need their TEACHERS.
Lawrence	103186398:Group Chat:This was awesome! Thanks!
Donna	103186398:Group Chat:Thank you for the information. I did not have sound working. Resources are great!
Charlene	103186398:Group Chat:I am very thankful for this opportunity to attend this webinar
Kim	103186398:Group Chat:Great webinar!
Casey	103186398:Group Chat:Do you have any clue how will PE be dealing with the changes?
Brian	103186398:Group Chat:Great presentations. Thank you
Howard O	103186398:Group Chat: I really appreciate this webinar. Thank you!

Deborah	103186398:Group Chat:Great information
Nyambura	103186398:Group Chat:I agree. So much to think about. We are definitely entering into a new phase of teaching.
Joe	103186398:Group Chat:Thank you for the information
Sonja	103186398:Group Chat:Great informal webinar!
Cathy	103186398:Group Chat:Thank you, this has provided a lot of excellent food for thought!
Halyna	103186398:Group Chat:It is a scary time. Thank you for the webinar.
Claudine-Lonje	103186398:Group Chat:Thank you this was quite informativ
Dr. Therese	103186398:Group Chat:Thank you!
Brenda	103186398:Group Chat:Great information!
Donna	103186398:Group Chat:Thank you for all the information. Do we earn a certificate of attendance?
April	103186398:Group Chat:Great information!
VICTOR	103186398:Group Chat:Thank you for this presentation-please see CSTA COVID-19 page for online learning resources: https://www.csteachers.org/page/csta-compiled-resources-to-support-teaching-during-covid-19
Patti-Lynn	103186398:Group Chat:Thank you for the information!
Lindsey	103186398:Group Chat:Where do we get the funding to implement some of these mitigation strategies? Most of our budgets have been cut by a lot.
Courtney	103186398:Group Chat:Thank you for the information-lots to think about (From Ontario, Canada)
Portia	103186398:Group Chat:Thank you, very thorough!
Nori	103186398:Group Chat:THANKS for keeping us informed! MUCH appreciated. Stay safe!
KRISHNAMOORTHY	103186398:Group Chat:Informative session.
Prasanta Kumar	103186398:Group Chat:Thanks for the webinar.
Nabila	103186398:Group Chat:Thank you
Donna	103186398:Group Chat:Can the chat be saved since resources were also provided in the chat section?

Jennifer	103186398:Group Chat:You mentioned random COVID-19 testing for students and staff. I don't see this in CDC guidance, though
Donna	103186398:Group Chat:Thank you.
Jim	103186398:Group Chat:ASCD's Whole Child in the Whole Community approach is good for ALL the challenges we face - I like that this is the center of attention here!
Steve	103186398:Group Chat:Thank you!
Ron	103186398:Group Chat:Is there a list of reopening plans anywhere? Looking for student attendance days: M/W 1/2 class & T/TH other 1/2 of class. Plans like that.
Sylvia	103186398:Group Chat:So much to learn and do. Schools will not be the same
Jenni	103186398:Group Chat:m
Howard O	103186398:Group Chat:I haven't seen any reopening lists yet.
Michael	103186398:Group Chat:Agree with Ron M. A list of reopening plans would be extremely helpful.
Sonja	103186398:Group Chat:How do we get our PD
Kari	103186398:Group Chat:Hello from Michigan!
Marisa	103186398:Group Chat:Thank you for providing this much needed information.
Dr. Merica	103186398:Group Chat:Thank you for this informative session. Question: Do you have resources for school officials to use to educate parents/guardians in high-risk areas on how minimize adding stress to their child?
Deb	103186398:Group Chat:Thank you!
Lindsey	103186398:Group Chat:Everyone is currently planning their reopening so ou probably won't see any plans for a bit.
Donna	103186398:Group Chat:I asked about our PD certificate. I hope they mail one to our school email address that we registered for the webinar on. Uncertain about the PD certificate.
Stacy	103186398:Group Chat:Thank you for the information.
Howard O	103186398:Group Chat:Perhaps they will.
Sharon	103186398:Group Chat:Yes, I wondered also regarding PD hour of attendance...would be receive email confirmation of some type.
Donna	103186398:Group Chat:Will there be a recording provided for this webinar as well after the program?
Howard O	103186398:Group Chat:I don't think there is a recording.
Drew	103186398:Group Chat:They don't record. Mentioned at the beginning.
Alison	103186398:Group Chat:This was not recorded.
Jessica	103186398:Group Chat:How long should students/staff remain out of school after showing symptoms or testing positive for COVID19?
Caryn	103186398:Group Chat:There won't be a recording
meltonya	103186398:Group Chat:This webinar was not recorded.
Donna	103186398:Group Chat:I see handouts are available in PDF. I am sure that provides most of the information
